

## Appendix 2 Description of the product and production process

*For the requirements O1, O2 and O3*

To be completed by the manufacturer of the ecolabelled product

Name of the product(s): \_\_\_\_\_

### 1. Production process

Please attach a flowchart showing the production of the product, including information on what components are bought from external manufacturers and what processes are done externally and internally.

### 2. Materials in the product

#### O1 Materials in the product

Please fill in the table below:

Parts of the product	Material*

*\* Indicated as for instance PP, PE, PET, silicone and so on*

#### O2 Halogenated plastics

Does the product or packaging\* contain halogenated plastic? ☐ Yes ☐ No

State the material in the packaging: \_\_\_\_\_

*\*Packaging refers to any inner and outer packaging of the ecolabelled product.*

#### O3 Latex

Does the product contain latex (natural rubber)? ☐ Yes ☐ No

### 3. Chemicals

## Additives

Are any additives\* added to the plastic raw material\*\* during the manufacturing process?

☐ Yes ☐ No

*\*Additives refer to for instance plasticisers, pigments and antioxidants.*

*\*\*Please note that this applies to both soft and hard plastic, and any other material that might be a part of the product, like rubber and silicone.*

If yes, please state the additives in the table below:

### Additives in the plastic

[illegible]

For documentation of the chemical requirements to additives, please use appendix 3.

**Adhesives**

Is adhesive used in or on the various parts/components of the product?

☐ Yes ☐ No

If yes, state the name of the adhesive(s) in the table below:

For documentation of the chemical requirements to adhesives, please use appendix 3.

**Signature**

Date and place:	Name of the producer of the disposable product for health care:
Responsible person:	Signature of responsible person:
