

Appendix 1 Declaration from paper manufacturer (O4, O6, O9)

Declaration from the paper manufacturer, to be used in conjunction with an application for a licence for the Nordic Swan Ecolabel of greaseproof paper.

Paper manufacturer:

O4 Requirement for fibres used to manufacture paper for contact with food	Yes	No
Does the paper contain recycled fibers?	<input type="checkbox"/>	<input type="checkbox"/>

O6 Fossil fuels	Yes	No
Are fossil oil and/or coal used as fuels* to produce process heat in the greaseproof paper mill? <i>Energy from fossil oil may only be used in connection with e.g. planned maintenance stops, emergency maintenance stops, as a reserve and tip fuel (peak load fuel) or at start-ups for regulation of the combustion temperature in a heat and co-generation boiler is allowed.</i> <i>*Use of natural gas and liquefied petroleum gas (LPG) is allowed.</i>	<input type="checkbox"/>	<input type="checkbox"/>
Is fossil oil used as a reserve or tip fuel in the greaseproof paper mill? In case fossil oil is used as reserve or tip fuel, the paper manufacturer shall report why the use of fossil oil is necessary. Upload the report.	<input type="checkbox"/>	<input type="checkbox"/>

O9 Optical brighteners and antimicrobial substances	Yes	No
Are optical brighteners used?	<input type="checkbox"/>	<input type="checkbox"/>
Are antimicrobial or disinfecting ingredients* added to the paper?	<input type="checkbox"/>	<input type="checkbox"/>
<i>* An antimicrobial agent is a chemical/product that inhibits or stops growth of microorganism such as bacteria, fungi, or protozoa (single-celled organism) and can be applied on a treated article or constituent in a chemical product. Antimicrobial agents such as triclosan, triclocarban and silver are examples. The requirement does not apply to preservatives used to preserve the chemical product, so-called in-can preservatives.</i>		

We declare that the requirements have been met and that the information provided is correct. In the event of any change to the composition of the product, that impacts the product's fulfilment of the requirements, a new declaration of fulfilment of the requirements is to be submitted to Nordic Ecolabelling.
